In face of the stock market liquidation, the enormous increase in the loan account of the banks of \$22,841,000 was a disagreeable | American Spirits pref shock to speculative sentiment and served | American Steel Hoop to offset the effect of the cash gain of nearly \$14,000,000. There has been large placing of loans abroad during the week, but special operations must be looked to to explain the loss item. The payment on American Tobacco account of the Pennsylvania Coal Com- American Tobacco pref pany purchase and large borrowings by one of the great railroad companies to carry purchases of stocks of other railroads, made last year, are supposed to account for some part of the increase. The stock market during the week has shown a state of nervous apprehension among speculators long of stock on a mar-

gin and a marked falling off in that general demand for stocks which afforded a sure market for so prolonged a period of extraordinary activity in trading. The conviction has steadily gained force that the demand which lifted them to that point MEMBER Chicago Stock Exchange was purely speculative and was not butwould hold them at the high level attained. From a technical point of view, the market has given evidences of an overextended long account. Stocks have been held, however, with considerable determination, and evidently there is an element that is still confident of higher prices. The selling has been largely forced by the declines which the bear element has caused by manipulation, thereby uncovering stop-loss orders Safe Deposit Vault and dislodging long stocks. The bear tactics have been resisted by powerful speculative interests, which have had supporting orders in the market. The bear element itself has been so eager to anticipate the culmination of the rise that it has kept the short account in the market very large. This is in itself a powerful sustaining factor, and represents a practical discounting of threatened liquidation. As a consequence there are large buying orders to take profits for short account at even slight recessions in prices, which props the market and checks the declines. The bear leadership has been notably bold and aggressive up to this time. These influences have served to offset to a degree the un-

Expected dividends or increases of dividends have not been forthcoming; much heralded consolidations have been officially disclaimed, and have, in each case, left a heritage of disappointment and prospective loss. The leading incidents of this class have been the assertions by President J. J. Hill, of the Great Northern, that he never owned a share of St. Paul stocks in his life; the denial by an official of the Metropolitan Street-railway of the reported lease of Manhattan; the lack directors for quarterly dividends on the on a 4 per cent. basis immediately. TRADE WAS VERY QUIET

WHEAT A TRIFLE STEADIER ON THE DWINDLING LIQUIDATION.

Corn a Shade Up on Small Accept ances and Oats Unchanged-Provisions Lower for All Varieties.

CHICAGO, Jan. 19 .- Board of Trade markets were dull to-day. Wheat was a trifle steadier on the belief that liquidation ! about over, but closed at a net decline of 1/4c on slack outside support. Corn closed a shade higher and oats unchanged. Provisions closed 5@121/2c depressed.

Under close scrutiny a steadier tone could be detected in the market for wheat. Not that the demand has improved, but the liquidation of long stuff during the day had the appearance of tail-end holdings being thrown overboard to clear the decks. May wheat opened 1/4c to 1/4c higher, at 74%@74%c, and touched 74%c, the trade being impressed by the firmness of ca bles compared with weakness on this side yesterday. The bulge met slack support and a decline to 73%c ensued. Heavy receipts, too, aided in depressing prices, but a moderate amount of buying at the bottom near the end of the session caused a rally to 74%@74%c, and the close was steady and %c lower, at 74%c. Seaboard clearances in wheat and flour were equal to 292,000 bu. Primary receipts aggregated 518,000 bu, compared with 400,000 bu last year. Minneapolis and Duluth reported 407 cars, against 331 last week and 374 a year ago. Local receipts were fifty-three cars, two of contract grade. New York reported twenty loads taken for export.

While corn was a narrow market, mostly within local confines and somewhat inclined to harken to the voice of the de clining wheat market, the tone was firm. Country offerings were light, the highest Brown Sheetings—Atlantic A, 6½c; Argyle.

Business in the oats market was very quiet, but when favored with encourage ment from the neighboring markets oats inclined to the bull side. Receipts were 248 cars. May sold between 251/4c and 251/4c, and closed unchanged at 251/4c. Provisions were quiet. The opening was firm on light hog receipts and firm prices at the yards. Hogs were weaker later,

and this had an effect on provisions. A slacker cash demand also helped to wear away the opening strength. May pork soid between \$14.20 and \$14, and closed 121/20 lower, at \$14.05; May lard between \$7.421/2 and \$7.371/2, closing 5c down, at \$7.40, and May ribs between \$7.171/2@7.20 and \$7.011/2, with the close 7½c depressed, at \$7.10. Estimated receipts for Monday-Wheat, 6 cars; corn, 460 cars; oats, 252 cars, hogs, 33,000 head.

LONDON, Jan. 19.—The offerings at the wool auction sales to-day numbered 13,169 bales. Bidding was generally at previous rates. Sellers in some cases asked an advance without result. As consequence 2,510 bales were withdrawn. Competition for fine scoured was good, but the corn-moner grades, which were in large supply, were low. Merinos sold freely at full rates. Crossbreds, which totaled over one-third of the of ferings, sold largely to Yorkshire. Suitable good greasy was taken by American buyers. BALTIMORE—In 19 Flows dull, and united states were probably not to exceed 2½c above yesterday. were probably not to exceed 25%c above yesterday. The receipts this week are nearly 1,000 larger than last week and 5,000 larger than the same week a year ago. There has been more fluctuation in values this week than the two preceding weeks, but the changes, for the most part, have been comparatively slight. The opening prices of the week were only a shade lower than the close of last week, and this was followed by a rally of equal proportions. There was a steady market for a day, and on Thursday there was 21/200c decline. At the close of the week there was an upturn in prices, and at the extreme the close of last weck. Shipping orders, on acbuyers at current prices. The quality has been good generally and quite a number of strictly prime loads were represented. Quotations:

> Common to good pigs. . Sheep and Lambs -Receipts light; shipments none. There were not many fresh arrivals of sheep or lambs to-day and the market was quiet at quotably steady prices. Lambs sold at \$59 5.50 and mixed lots at \$4.25. The receipts this week are a little smaller than last week and 900 larger than the same week a year ago. There have been very few changes to note in the market this week, partially on account of the insufficient supplies, at times, to interest buyers, and because of the scarcity of choice stock. There has been an occasional sag in values, but usually this was followed by a rally of equal proportions, and values at the extreme close of the week were not quotably different from those current at the beginning of the week. Fancy lambs have sold as high as \$5.50, and \$3.75 has been practically the top for sheep, although there were a few sales

Sumner Succeeds Casey.

PHILADELPHIA, Jan. 19.-Rear Admiral George W. Sumner to-day succeeded Rear Admiral Silas Casey in the comman of the Philadelphia navy yard. Admiral Casey has been transferred to the Pacific station. The ceremony of exchanging commands was formal, but simple in character, new commandant in the administration building. Admiral Sumner upon his arrival read his orders notifying him to assume command of the naval station and him of his new post of duty. Following
